RE: COMMENDATION FOR SERVICE ABOVE AND BEYOND TO CHILDREN FROM THE COMMUNITY AND SUPPORT

Dear David Marshal

We would like to take this opportunity to acknowledge the quality of service your educational facility provides to the community, families and young people that access your school.

In recent years our staff have consulted and collaborated with your team on many occasions to develop systemic interventions to reduce psychological distress in students that attend your school. This collaboration has given us the opportunity to observe many qualities/values your organization and team members have that enable you to make a significant difference to the lives of your students whilst providing a quality educational alternative.

We commend your desire to work collaboratively with key stakeholders in the region especially CAMHS to address broader issues that form barriers to education for your students. Your enthusiasm and creativity in developing curriculum is clearly evident. Most importantly are the personal qualities of commitment and passion that your staff exhibit of for your students. It is this commitment in providing support often beyond what is formally expected or measured as inputs to education outcomes which from a CAMHS perspective is often essential to mental health.

We hope that our partnership will continue into the future as we assist each other in providing greater opportunities to young people and their families to achieve their life goals, a greater sense of wellbeing and quality of life.

Kind regards,

Dr Flora Botica
Psychiatric Consultant

Jason Ellis
CAMHS Service Manager

Dr Darryl Milovchevich
Senior Clinical Psychologist

Meagan Brady
Social Worker
