Overview

1. Policy Statement

Sowilo Community High School is committed to providing a student focused, concerns and complaints process that is aligned with the requirements of the National Principles for Child Safe Organisations and required legislation. This policy outlines the processes we implement to receive, register and manage any complaints or disputes and demonstrates how, as a school, we recognise the rights of a child, prioritises the student and make sure the process is accessible to all members of the school community.

This policy has been authorised and endorsed by the Sowilo Community High School – School Council.

2. Introduction

In February 2019, the Council of Australian Governments endorsed the National Principles for Child Safe Organisations. The National Principles give effect to the ten child safe standards recommended by the Royal Commission into Institutional Responses to Child Sexual Abuse. They provide a nationally consistent approach to cultivating organisational cultures and practices that foster child safety and wellbeing. All governments are responsible for giving effect to the National Principles in their jurisdictions.

National Principle 6 states that organisations should have processes to respond to complaints and concerns that are child-focused and always uphold the rights of children and young people. The Royal Commission highlighted the importance of institutions using a child rights framework to guide their work with children and young people.

We value everyone in our school community – students, staff, parents/guardians, volunteers and community partners. Our aim is to empower our students to demonstrate safe life skills and become positive community members. We involve them in the decision making process to allow them to speak up when they believe something is wrong and participate meaningfully in the complaints handling process.

All concerns and complaints are taken seriously and managed with respect for everyone involved. We manage all barriers, including cultural barriers, by creating and building positive, and respectful partnerships with our students, parents/guardians, staff and the wider school community. These partnerships are focused on cultural awareness, community, inclusivity, understanding and mutual respect. We treat all concerns and complaints with respect, courtesy and sensitivity.

As part of this process we make sure that:

- All community members who have a concern or complaint know the process to follow to communicate that concern or complaint.
- We will always take all concerns and complaints seriously, treat all parties involved with respect and dignity and address all issues or concerns efficiently and quickly.
- All concerns and complaints raised are investigated in alignment with the school's policies and procedures.
- Results of the investigation are communicated to all parties involved and outcomes and actions are consistent with the school's philosophy and all relevant policies and processes.

- We manage all documentation and records safely and securely in accordance with our Privacy and Compliance Policy and Record Keeping and Retention Policy.

3. Policy Communication

This policy is:

- Available for download on our school website.
- Copies can be sent to Parents/Guardians upon request.
- Provided to new staff at the start of their employment.
- Stored in soft copy on our school drive.
- Stored as hard copy with our administration team.

- Complaints are lodged in the following ways:
 - In person.
 - By telephone.
 - In writing – email, SMS, letter.
 - Anonymously.
- All complaints are taken seriously. We respond promptly, professionally and respectfully.
- All complaints are investigated according to the school’s policy and procedures.
- We apply procedural fairness and act where appropriate.
- We maintain confidentiality with all parties. The exception being in the case of a student complaint where it may be appropriate for the parent/guardian to be advised. Students are made aware of any limits to confidentiality.
- Records are kept in accordance with the Privacy and Compliance Policy and the Record Keeping and Retention Policy. We maintain an up to date Complaints and Disputes register.
- We review and evaluate complaints to make sure we can update or improve our child protection policy and procedures.
- We communicate findings to parents, students and school community members.
- We provide information or reports to relevant authorities or law enforcement as required.
- We regularly review our process and information to identify areas for improvement.

Note

We encourage school community members to raise concerns directly, rather than anonymously, by giving reassurance of confidentiality and respect. In the event of an anonymous complaint it will be at the School Coordinator/Principal’s discretion as to what action, if any, can be and should be taken, depending on the nature or the circumstances of the complaint. All anonymous complaints will be recorded in the complaint register.

2. Embedding children’s rights, safety and wellbeing in the complaints process.

Our school prioritises the safety and wellbeing of all students. To make sure we have a child friendly complaint process we include the following:

- A clear commitment that no one will get into trouble or be penalised for making a complaint or raising a concern.
- The complaints process is communicated to the school community across all levels of the school both formally and informally.
- Using the Protective Behaviours curriculum we provide all students with information on the complaints process and who they can talk to if they are feeling unsafe. This information is taught at all levels of the curriculum using a variety of methods and scenarios including visual posters, whole school meeting reminders, individual counselling and one on one discussions.

- We promote inclusion and diversity through our Charter of Commitment, our Codes of Conduct and our academic curriculum.
- Our staff are trained to understand the various ways that a student may communicate their concerns, complaint or distress and how they will disclose harm.
- Our staff understand their roles and responsibilities in protecting the safety and wellbeing of all our students.
- We actively encourage our students to provide feedback on school related matters and empower them to have a voice.
- We promote respect, honesty and openness as well as encouraging students becoming positive role models and good community members.
- We provide ongoing support to anyone who makes a complaint or raises a concern to the school.

6. Disputes

Wherever possible we are committed to resolving complaints, concerns and disputes in a positive and respectful manner. Sometimes, a matter can escalate to a dispute for several reasons.

This includes:

- The nature of the original complaint.
- The manner/way in which the original complaint was managed.
- Lack of satisfaction with the proposed resolution.
- Unreasonable expectations from one of both parties involved.

Escalation can be internal or external either to the chair of the School Council or external to an independent Arbiter. The decision of the independent Arbiter is final and binding to all parties involved as far as allowed by law.

3. Making a complaint – Students

This process is outlined to all students at the start of each school year with follow up and reminder sessions during Protective Behaviour classes and the weekly whole school meeting. A visual poster of the complaints process is put up in the administration area and on the school notice board.
