## Our Approach to Bullying and Harassment

---

At Sowilo Community High School, we are committed to providing an educational environment where students feel safe when they come to school. The school does not tolerate any form of bullying, harassment, or violence.

### 1. Understanding Bullying and Harassment

Bullying is an **ongoing and deliberate misuse of power** in relationships through **repeated verbal, physical, or social behaviour** that intends to cause physical, social, or psychological harm.

It can involve an **individual or a group** misusing their power over one or more persons who feel unable to stop it from happening. Bullying can occur **in person or online**, via various digital platforms and devices, and it can be **obvious** (overt) or **hidden** (covert).

Bullying behaviour is repeated or has the potential to be repeated over time. Bullying of any form or for any reason can have **immediate, medium, and long-term effects** on anyone involved, including bystanders.

### 2. Types of bullying

There are three types of bullying behaviour:

- **Verbal** bullying includes name-calling or insulting someone about physical characteristics such as weight or height or other attributes, including race, sexuality, culture, or religion.
- **Physical** bullying includes hitting or otherwise hurting someone, shoving or intimidating another person, or damaging or stealing their belongings.
- **Social** bullying includes consistently excluding another person or sharing information or images that will harm the other person.

#### Note

Verbal, physical, and social bullying can occur in person or online, directly or indirectly, overtly or covertly.

### 3. Recognising the effects of bullying

A student who is being bullied or is bullying others will respond and act differently. A student's behaviours and moods can also change for a variety of reasons. We understand that the majority of bullying behaviour occurs out of sight of adults.

Staff are well placed to observe behaviour changes in students. We ask that all observed behaviour changes are noted and raised in staff meetings or directed to their reporting manager or School Coordinator/Principal. These may be a sign of bullying behaviour or something else.

## 5. Responding to a bullying incident at school?

When responding to bullying and harassment in the school, we prioritise:

- The safety and security of the student/s involved.
- Being fair and consistent and finding a positive solution for everyone involved.
- Repairing relationships, educating everyone involved, and preventing a re-occurrence.

When an incident occurs, the school focuses on responding calmly and consistently, focusing on positive education and managing the situation.

The process includes:

- Interviewing the student to determine what has happened.
- Recording the details on an incident management form.
- The Leadership/Welfare Team will determine the most appropriate course of action, including the level of intervention and support required.
- If the problem involves several incidents or other individuals, the school will investigate further and mediate between those involved.
- The school uses a **Restorative Practice** process to develop empathy and resilience while providing students with better ways to deal with the problem.

We ask parents/guardians to support the school by encouraging children to work positively with their class and school peers and encouraging their children to report bullying incidents to a staff member or administrator.

### Note

Sowilo Community High School forbids using any forms of child abuse, corporal punishment, or any other degrading punishment.

## 6. Intervention, Consequences and Restorative Practices

The primary aim of the school's response to bullying and harassment is to restore a positive learning environment for all students.

The school will always prioritise the most appropriate method for the situation and the students to change behaviours, repair relationships, and restore the community. When deciding on the course of action to take, we consider the following:

- The students involved.

- The severity and frequency of the bullying and the impact it has had on the individual/s involved.
- The type of bullying involved.
- Has the bullying behaviour been displayed before?
- How many students were involved?
- Has the student/s involved shown remorse or insight?
- Was there a motive for the behaviour?
- Does the students/student understand the Code of Conduct and the Sowilo Rules?

We consider implementing the following:

- Counselling and support for all students involved.
- Provide mentoring opportunities for students involved.
- Facilitate a restorative practice meeting with all or some of the students involved. The aim is to repair damaged relationships by bringing about a sense of remorse from someone who has bullied someone and forgiveness from the bullied student/s.
- Facilitate a mediation between some or all the students involved. The aim is to encourage students to take responsibility for their behaviour while addressing underlying reasons for conflict or grievances with others.
- Implement disciplinary consequences for the perpetrator students, including removing privileges, suspension, or expulsion consistent with the Behaviour Management, Welfare, and Counselling Policy. Behaviour monitoring and follow up actions.
- Facilitate a Behaviour Support Plan for affected students.
- Implement a Safety Management Plan for identified students.

#### **Note**

Records will be kept and maintained according to our Record Keeping and Reporting Policies. Refer to the Behaviour Management Policy for more information.

### **7. Communication and Confidentiality**

Sometimes, parents/guardians and students may not always see these programs or activities being implemented for safety, confidentiality, and privacy reasons.

### **8. Professional Development**

Staff complete professional development training to understand bullying and harassment and the effect it can have on student/s. The training aims to help staff gain the knowledge and skills to engage with students and safely address bullying and harassment issues.
